

New Business Area Manager for Protection & Paint!

[Anton Karlsson](#) became new business area manager for Provexa's Business Area [Protection & Paint \(PoP\)](#) on June 1st 2020. Anton will also be the sales representative at PoP.

since 2012. He has held several positions within the company, both in production management and sales. He replaces Jan Malmqvist, who left the position due to lack of work caused by the Corona crisis.

"Jan has shaped a good foundation for a successful PoP that we will all enjoy and benefit from. I want the PoP business area to continue to focus on Quality, Delivery and Communication.

"My genuine interest in surface treatment, surface technology and powder coating in combination with business thinking, sales knowledge and market knowledge, will take PoP to the next level," says Anton Karlsson.

[Protection & Paint](#) is one of four business areas at Provexa. Other business areas are [Galvano](#), [ZnFlake](#) and [Technology](#). PoP specializes in processes [Provexa EARTH®](#) (high alloy zinc), [Provexa EARTH BLACK®](#) and [Provexa PLUTO®](#). The business area also has advanced dipping facilities for applying Phosphate / ED varnish and Powder coating.
