

# Provexa Technology AB

Laboratory, Testing, Analysis,  
Consultant services and  
Customized special production

## PARTNERS

Chalmers University of Technology  
Chalmers Industriteknik AB  
RISE of Sweden

Process	Specification	Price model
ACT1 – Climate Chamber Testing	SS EN ISO 16701:2008 <1000x500x500 mm, 5 samples, 6 weeks and test report	12 000 SEK
NSS – Natural Salt Spray	NSS ISO 10289:2001 <1000x500x500 mm, 5 samples, 1500h, follow up and test report	7 500 SEK
Bulk conductivity	IEC 60093 DC bulk conductivity test, 5 samples, 5 measurement points and test report	5 000 SEK
Colour Gloss	ASTM, D523, 5 samples and test report	3 500 SEK
Colour spectrum measurement	RAL 1000-9023, 5 samples and test report	3 500 SEK
Coating thickness measurement	ISO 2178 magnetic induction XRF X-ray, 5 samples and test report	3 500 SEK
Surface technology consulting, products and processes	Product development, Quality and Process engineering services	2 500 SEK/h
Special production	Surface treatment of unusual materials such as Invar, Kovar, Wolfram, Titan etc.	2 500 SEK/h, 1 500 SEK Start up and chemical cost
Gold plating	Hard gold, soft gold etc.	Fr 1 950 SEK + Metal cost

## About Provexa Technology AB

Provexa Technology is a Product Development and Consulting Partner working with future Surface Technology, Electro Plating and Coating Technologies. In our portfolio we hold a number of Patented Technologies as the Provexa EARTH and Provexa PLUTO families whereof EARTH is an anti-corrosion product and PLUTO is a top coat based on new material technologies that makes it liquid and gas proof. Top coat | First Global Industrial Application of Graphene Surface Technology | Barrier | Conductive | Anti Corrosion | Friction Control

Provexa Technology offers solutions within a wide range of services to OEMs, platers, product development companies on metal and plastic components. Among these services are Laboratory Testing of Surface Technologies, Process Analysis, Conductive Testing, Thickness measurements etc. We also offer Special Coating Manufacturing on small series and products with Special Demands. We also offer consulting services within Coating and Plating as Product and Process Development Support and also Licensing of our Technologies and Patented Technologies.

Protected by PLUTO
