

Company Presentation

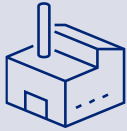

2026

Owner structure

About the Provexa Group

Surface treatment and surface technology estimated turnover this year 215 MSEK (160)

150 employees

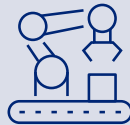

Profitable, estimated EBITA this year (EBITA) 25 MSEK (11)

23 000 sqm modern facilities with good working environment

Lab with qualified process development, corrosion testing and consulting

Wide variety of processes with latest technology

Göteborg Anderstorp Norrköping

ISO 9001 ISO 9001 ISO 9001
ISO 14001 ISO 14001 ISO 14001
ISO 45001 IATF 16949

High valued service to our 1 000 customers

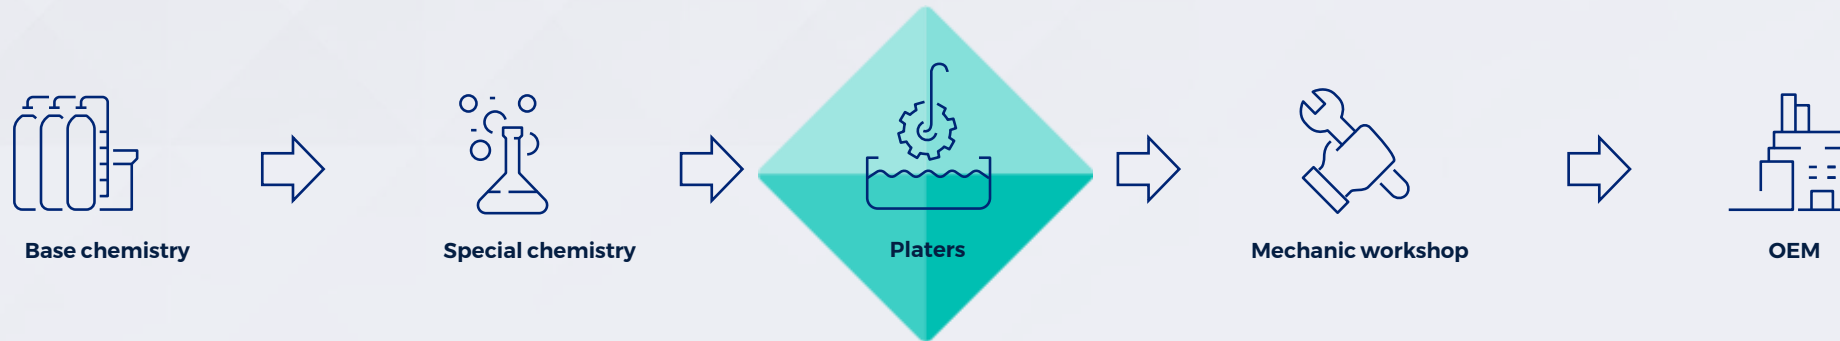

Vision

**“Our dream is a sustainable world,
where we can contribute with world
leading surface technology.”**

Industry logic

"The demand for surface treatment has never been this big – the knowledge never so difficult to access"

Our goal – to be a leader in Scandinavia within the surface treatment technology industry.

Provexa Technology AB

Provexa Ytbehandling AB

Provexa Plastics AB

BRINK AB Förnicklingsfabriken

Technology

- R&D
- Analysis
- Durability testing
- Corrosions testing
- Material testing
- Damage investigation
- Consultant services
- Licenses
- Gold plating
- Silver plating
- Electroless nickel plating HP
- Nickel plating sulfamat
- Special production

Galvano

- Anodizing
- Hard anodizing
- Nickel plating -bright, Semi-bright, matte, sulfamat, black
- Electroless nickel plating
- Electropolishing
- Zinc plating
- Copper plating
- Chrome plating
- Brass plating
- Nickel plating
- Silver plating
- Tin plating
- Chromating
- Passivating
- Surtec 650 & 650A
- E-Clps
- Black oxidation
- Waxing

Protection & Paint

- Powder coating
- E-coat
- Provexa Earth®
- Provexa Pluto®

ZnFlake

- Zinc plating
- Geomet®
- Geoblack®
- Passivation of stainless steel
- Pickling & blasting
- Gleitmo products

Plating on Plastic

- Chrome plating
- Copper plating
- Nickel plating

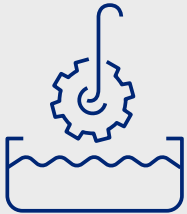

Pollux

- Anodizing
- Electropolishing
- Passivation of stainless steel
- Tumbling
- Assembly of insert threads

Brink

- Electroless nickel plating with 6-9% P
- Electroless nickel plating with 2-4% P (black)
- Electroless nickel plating with 10-13% P
- Electroless nickel plating PTFE
- Nickel plating
- Chrome plating
- Copper plating
- Gold plating
- Hard chrome
- Keronite
- Pickling of stainless steel

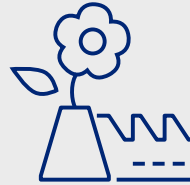

What our customers demand.

Surface treatment experts.

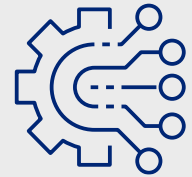

Quality- and precision experts.

Increased environmental awareness/sustainability.

Competence, innovation and development.

Customer focus.

Operational policy

Our 12 goals

To be the customers' first choice by offering high **quality**, **delivery reliability** and **communication**

To be **innovative** - adding value to our customers by optimizing their product

To be an attractive place to work by offering good and **secure working environment**, well being and good **health**

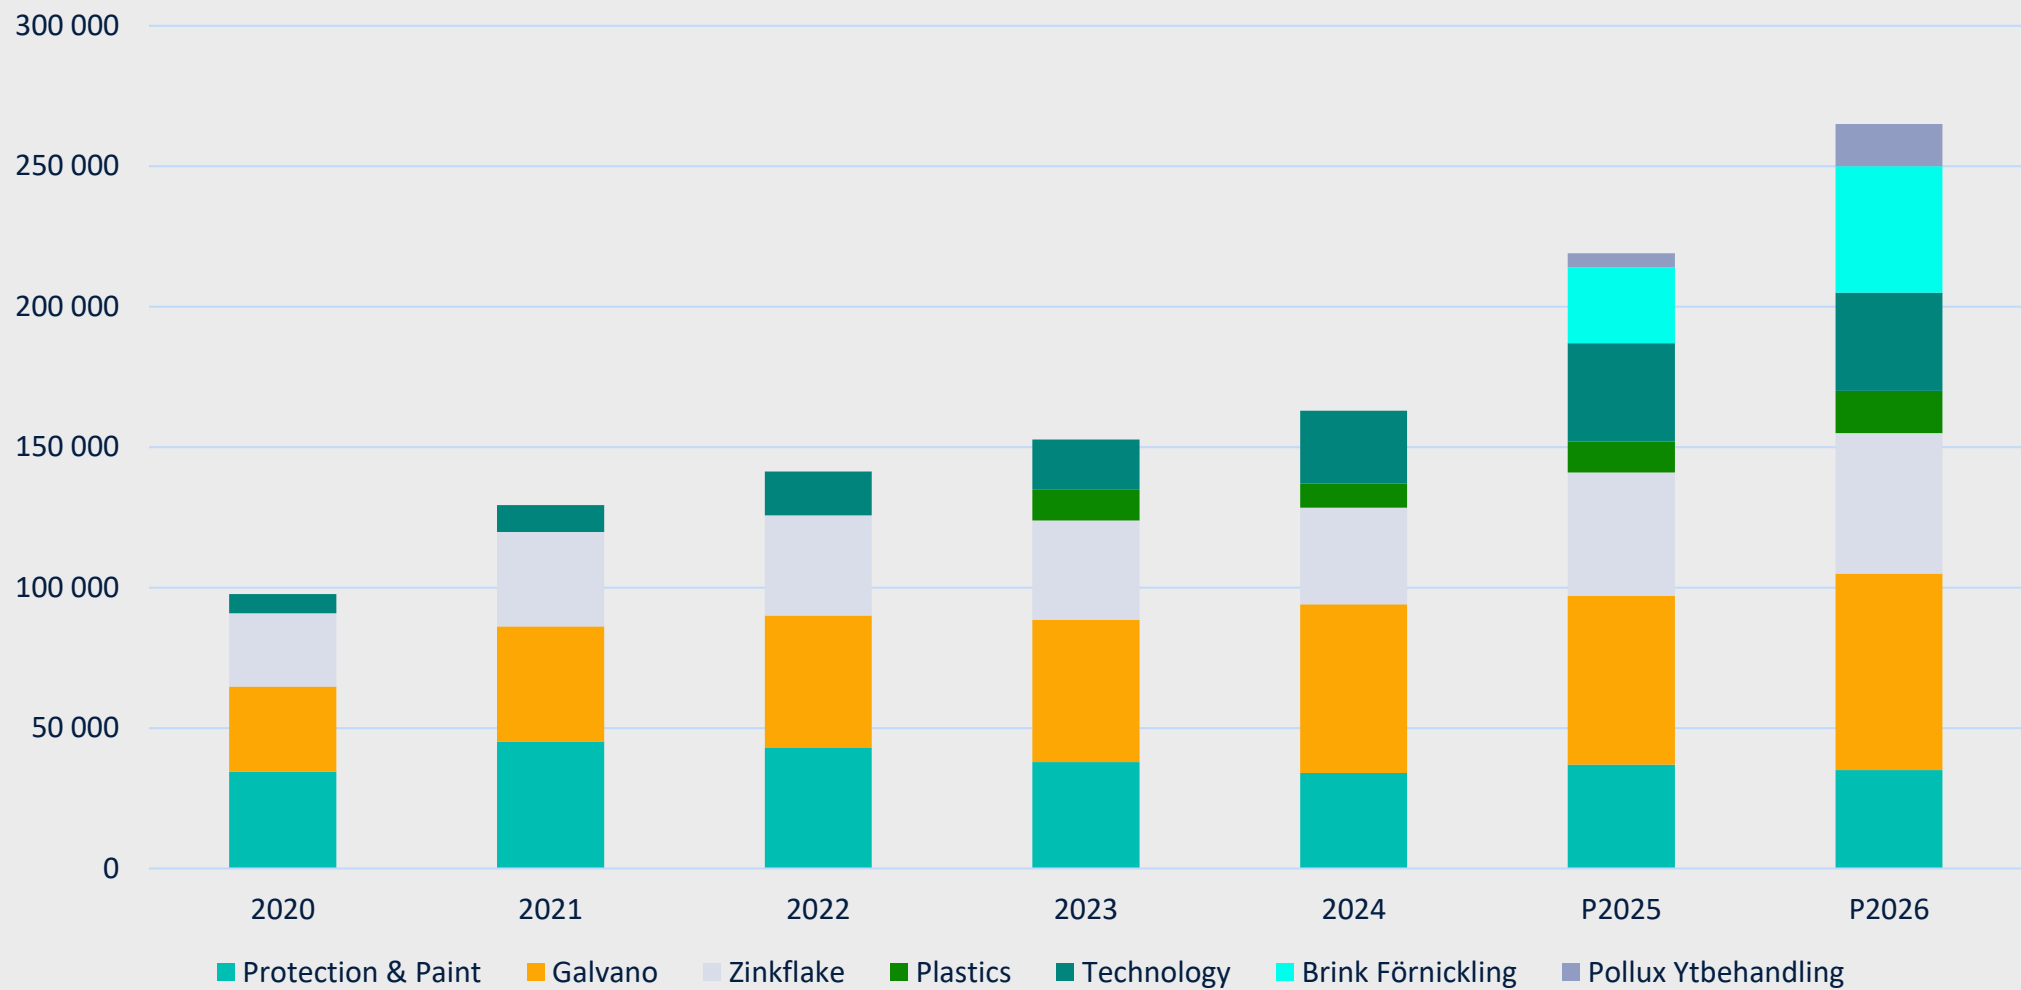

To contribute to a better world by sustainable surface treatment and resource saving production (**electricity**, **gas**, **water** and **chemicals**)

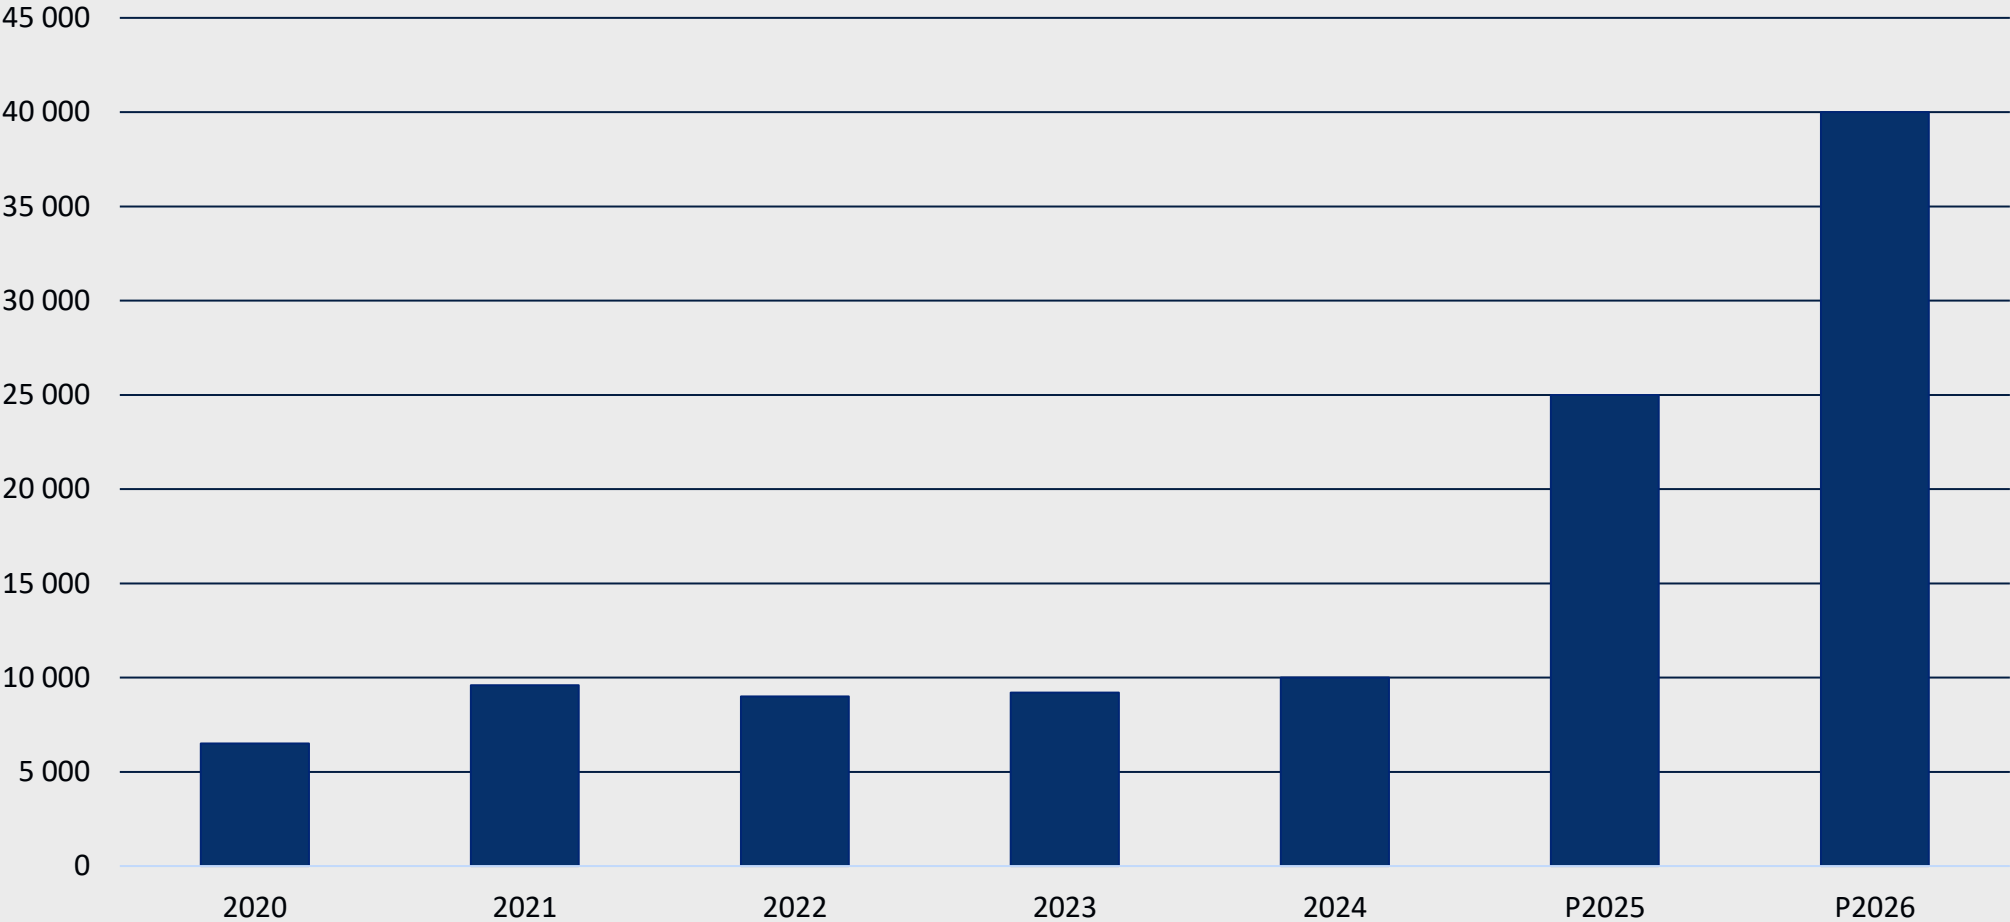

To **grow** with **profitability**

Customers

Organization Provexa group

“Our goal is to set a new standard for surface treatment where research and development is always a natural part of the collaboration.”

Provexa Technology - Innovation for the future.

- Analysis, testing, and custom production.
- Research and development.
- Patented technologies.
- Consulting services.
- Licenses.

Provexa Plastics

- Plating on plastics

- Long experience
- High competence
- Cost effective surface treatment
- Tier 1 in the Automotive industry
- IATF-certification

Protection & Paint

- World class corrosion protection.

- Specialized corrosion protection for ED-coating, phosphating, Provexa Earth® , Provexa Pluto® and powder coating.

Galvano

- Scandinavias broades offer of galvanic surface treatment

- Certified in aerospace, electronics, and automotive industries
- **Alloys:** Aluminum 1000-7075, Cast Aluminum, Zn, Mg, Fe, Stainless Steel, Cu, Brass, Bronze
- We **plate:** Silver, Tin, Copper, Brass, Zinc, Nickel (glossy, matte, sulfamate, black, medium- & high-phosphorus) & Chrome
- We **passivate:** Surtec 650, E-Clps 4600, Electropolishing, Alu Bright & Yellow Chromating Cr6+, Silver Passivation, Stainless Steel, Pickling
- We **oxidize:** Black Oxidation & Brown Oxidation
- We **anodize:** Anodizing & Hard Anodizing
- **Method:** Fixturing, Hook, Basket, Barrel
- Two separate departments: automated and manual
- We handle both high-volume production and single-piece series

ZnFlake

- Corrosion protection with controlled friction

- The only Geomet® licensee in the Nordics
- 3 production lines
- Zink plating
- Gleitmo products
- Pickling and shot blasting

Brink Förnickling

- Consulting at the development/design stage to identify the appropriate surface treatment method
- Surface treatment of prototypes/pre-series
- Masking of surfaces that should not be treated or that should be treated by another method
- Subsequent services such as pressure testing, installation of threaded inserts, grinding and polishing, etc.
- Customer-specific tests and measurements, surface treatment certificates

Pollux Ytbehandling

- Anodizing in various forms for wear resistance, corrosion protection and decorative surfaces
- Electropolishing for improved cleanliness, gloss and corrosion resistance
- Tumbling and other mechanical pretreatments to achieve the desired surface finish. Masking of surfaces that should not be treated or that should be treated with a different method
- Assembly of components, such as threaded inserts and other customer-specific details

Our goal – to be a leader in Scandinavia within the surface treatment technology industry.
